INFORMATION DISCLOSURE FORM

TIME LIMITS FOR PROCESSING AND PUBLIC NOTICE DISTRIBUTION REQUIREMENTS

California law requires that the county provide the following information to applicants when a development permit application is filed:

Not later than 30 days after a development permit application is received, the county must notify the project applicant or designated representative in writing either that the application is complete, or that items are necessary to complete the application. If you are not notified in writing, the application is considered complete. Any development permit application must be approved or denied within 60 days of adoption of the Negative Declaration or determination that the project is exempt, or within 180 days of the certification of the Environmental Impact Report. If the development project includes affordable housing and certain criteria is met, the 180 days is reduced to 90 days. The County of San Luis Obispo processes the development permit application and the environmental review concurrently, so these decisions are made simultaneously. Questions about this process can be answered by your project planner. (*Government Code Sections 65941.5, 65943 and 65950*).

A project applicant may make a written request to the county, to receive notice of any proposal to adopt or amend the general plan and the land use, real property division, building and construction, road name and addressing, and growth management ordinances which might reasonably be expected to affect that applicant's project. The county offers a subscription service for notification of either: (1) all applications received by the county, or (2) Planning Commission agendas. The cost for each of these services is established by the county fee ordinance. (*Government Code Section 65945*).

When a property was created through recordation of a final or parcel map, and it is within five years of recordation, the county can not withhold or condition the issuance of building permits for residential units based on conformance with conditions that could have been imposed as conditions of the tentative map except where: A failure to do so would place subdivision residents or residents in the immediate area in a condition perilous to health, safety or both; or The condition is required in order to comply with state or federal law. (*Government Code Section 65961*)

The Secretary for Environmental Protection maintains a list of all hazardous waste and substance facilities and sites and contaminated public drinking water wells. This information is available to any person upon request. (Government Code section 65962.5). Copies of these Government Code Sections are available at the County of San Luis Obispo Law Library, County Government Center, San Luis Obispo, CA."
